Agreement for Treatment with Buprenorphine/Naloxone

□ Yes	□ No	I understand that buprenorphine/naloxone is a medication to treat opiate addiction (for example: heroin, prescription opiates such as oxycodone, hydrocodone, methadone). Buprenorphine/naloxone contains the opiate narcotic analgesic medication, buprenorphine, and the opiate antagonist drug, naloxone, in a 4 to1 (buprenorphine to naloxone) ratio. The naloxone is present in the tablet to prevent diversion to injected abuse of this medication. Injection of buprenorphine/naloxone by a person who is addicted to opiates will produce severe opiate withdrawal.
□ Yes	□ No	1. I agree to keep appointments and let staff know if I will be unable to show up as scheduled
□ Yes	□ No	2. I agree to report my history and my symptoms honestly to my physician, nurses, and counselors involved in my care. I also agree to inform staff of all other physicians and dentists who I am seeing; of all prescription and non-prescription drugs I am taking; of any alcohol or street drugs I have recently been using; and whether I have become pregnant or have developed hepatitis.
□ Yes	□ No	 I agree to cooperate with witnessed urine drug testing whenever requested by medical staff, to confirm if I have been using any alcohol, prescription drugs, or street drugs.
□ Yes	□ No	 4. I have been informed that buprenorphine is a narcotic analgesic, and thus it can produce a "high"; I know that taking buprenorphine/naloxone regularly can lead to physical dependence and addiction, and that if I were to abruptly stop taking buprenorphine/naloxone after a period of regular use, I could experience symptoms of opiate withdrawal. I also understand that combining buprenorphine/naloxone with benzodiazepine (sedative or tranquilizer) medications (including but not limited to Valium, Klonopin, Ativan, Xanax, Librium, Serax) has been associated with severe adverse events and even death. I also understand that I should not drink alcohol with buprenorphine/naloxone to produce medical adverse events such as reduced breathing or impaired thinking. I agree not to use benzodiazepine medications or to drink alcohol while taking buprenorphine/naloxone and I understand that my doctor may end my treatment with buprenorphine if I violate this term of the treatment agreement.
□ Yes	□ No	5. I have been informed that buprenorphine/naloxone is to be placed under the tongue for it to dissolve and be absorbed, and that it should never be injected. I have been informed that injecting buprenorphine/naloxone after taking buprenorphine/naloxone or any other opiate regularly could lead to sudden and severe opiate withdrawal.
□ Yes	□ No	6. I have been informed that buprenorphine/naloxone is a powerful drug and that supplies of it must be protected from theft or unauthorized use, since persons who want to get high by using it or who want to sell it for profit, may be motivated to steal my take-home prescription supplies of buprenorphine/naloxone.

□ Yes □ Yes □ Yes □ Yes	□ No	7. 8. 9.	I have a means to store take-home prescription supplies of buprenorphine/naloxone safely, where it cannot be taken accidentally by children or pets, or stolen by unauthorized users. 1 agree that if my buprenorphine/naloxone pills are swallowed by anyone besides me, 1 will call 911 or Poison Control at 1-800-222-1222 immediately and I will take the person to the doctor or hospital for treatment. I agree that if my doctor recommends that my home supplies of buprenorphine/naloxone should be kept in the care of a responsible member of my family or another third party, I will abide by such recommendations. I will be careful with my take-home prescription supplies of buprenorphine/naloxone, and agree that I have been informed that if I report that my supplies have been lost or stolen, that my doctors will not be requested or expected to provide me with make-up supplies. This means that if I run out of my medication supplies it could result in my experiencing symptoms of opiate withdrawal. Also, I agree that if there has been a theft of my medications.
